

# A DIFFERENT VIEW OF THE WORLD : SCHOOL CORRESPONDENCE WITH FOREIGN SCHOOLS

Our association invites you to take part in school exchanges with schools in developing countries, combining education in sustainable development with international solidarity, giving pupils the opportunity to be informed, aware and able to make choices about future environmental challenges. This year, the exchanges will be linked to the United Nations Congress on Ocean Protection in Nice in June. So get to work!

Project period : one school year

Beneficiary public : all classes and sections

Choice : all public schools and schools under contract with the

State Level : Primary cycle 3, middle and high schools.

## THEMES 2024-2025: SEAS & OCEANS
